## OU's Unbeaten Team Will Shoot For Return To NAIA Tournament

### May 29-30 Area Finals Playoff Date Weekend Victor Face Indians

Omaha University's unbeaten baseballers will shoot for a return to the NAIA national baseball tourney right in its own back yard. The announcement came Wednesday that the finals of the Area 3 playoffs will be held in Rosenblatt Stadium May 29-30.

The Indians will face the winner of a weekend hassle at Mayville, North Dakota, involving Mayville State, Yankton College, Minot State, Black Hills Teachers and Eastern Montana. The survivor then goes to the national finals at St. Joseph, Missouri, June 8-12.

Area NAIA chairman Russ Armstrong of Chadron made the announcement that Omaha had been selected as the playoff site and praised the recent Area 3 south playoffs held here. The hastily formed tournament drew good crowds and was extremely well organized on short notice.

The Omaha round robin will consist of two games on the 29th and a third, if necessary, on the 30th. It is a best of three series.

The tournament fever brings back memories of four previous OU appearances in the post season dessert series. The 1960 Indian edition took the runner-up slot to Southern University in the finals at Alpine, Texas.

#### A Grueling Night

The Indians finished that season with a 15-0 record and the CIC and K-M-N crowns under their belts. They polished off North Dakota State and Nebraska Wesleyan in the Area finals before getting the ticket to Alpine.

Coach Virgil Yelkin's crew took Patterson State of New Jersey, 15-5, before losing their first game of the year to Rollins, 11-4.

The Omahans then polished off Southern Illinois, Western Washington and Rollins twice to gain the finals against Southern U. The three games on the final day took their toll, however, and the rested Southerners polished off a tired Omaha nine, 10-2, for the title.

#### The outlook

The outlook this time is good. Most of the chances for a return to the national tournament depend on the strong right

(Cont. Page 2, Col. 4)

## Resignation of Dr. Paul Announced

### To Head Speech At Cincinnati U.

The crying towel, located in the office of Dr. Aldrich Paul, has remained damp since the announcement of his resignation May 6.

Dr. Paul came to Omaha University in 1956 after teaching at Iowa State University.

In seven years as head of the speech department he has increased the curriculum offerings from 15-35, increased the majors from 18-110, and increased the faculty from four

Dr. Paul . . . leaves

to twelve. "I was so anxious to build up the speech department, I lost my hair in the process," said Dr. Paul.

The acceptance of the intramural speech activities is one of Paul's greatest accomplishments for very few schools have such an intramural department as that of OU's.

During his spare time, he has served on the student activities committee and the athletic committee. He was one of the senior class sponsors from 1958-1963, was president of the American Council for Better Broadcasting in 1960, published a text book called, "Speech Management" in 1961, wrote articles for the "Iowa State Engineer" and "Iowa State Scientist," and in 1962 was tapped for O.D.K.

September first, Dr. Paul will become head of the speech department at the University of Cincinnati, where his department includes public address, radio and TV, theater arts, speech pathology, and industrial communications.

He will build a graduate program leading to a graduate degree in all these areas. "A new department will give me a fresh and greater challenge to start building," Dr. Paul said.

When asked why he decided to leave OU, Paul stated two reasons: The opportunity for academic growth in leading to the graduate degree and the substantial increase in salary offered by the University of Cincinnati. "Certainly, I leave behind some eight years of roots, friends and memories

(Cont. Page 2, Col. 1)

## Regents Hike Tuition \$3 For Fall Semester To Gain New Revenue

### Notice

Have you glanced at the expiration date of your library card yet? If you have, you probably noticed that it is a passport to reading pleasure until August 31.

This means that you can utilize the facilities of the Gene Eppley Library throughout the entire summer.

## Undergrads Increase Is \$14 Per Hour

### Money To Raise Faculty Pay

The University of Omaha Board of Regents jumped tuition \$3.00 per credit hour for undergraduate students at its board meeting yesterday.

The increase will raise tuition from \$11 to \$14 per hour for resident students and from \$20 to \$23 an hour for non-resident students. The tuition hike will take effect September 1.

At the same time, tuition for graduate students was hiked \$2.50 more per credit hour. Cost for graduate resident students will rise from \$12.50 per hour to \$15, while non-resident graduate cost will jump from \$21.50 to \$24 per credit hour.

It is estimated that the tuition increase will bring in \$701,000. Of this, \$575,965 will go for faculty salary increases and the hiring of additional faculty members.

Under the new budget, the average professor's salary will be \$12,166, associate professor \$10,211, assistant professor \$8,572, and instructors, \$6,896.

President Bail said, "It is important that faculty salaries be raised in order to hold our excellent staff."

#### 1964-65 Budget

Also approved by the Regents was the 1964-65 University budget which will total \$4,848,950 beginning next September.

Of this amount students will contribute \$2,893,000 which is 69.3% of the total operating budget. Taxpayers will pay 30% of the budget or \$1,250,000. The remaining .7% totaling \$30,000 will come from miscellaneous income.

The new budget represents an increase of \$648,471 over the current University fiscal program of \$4,200,479.

The new budget is being based upon an estimated enrollment of 4,000 day students per semester and 4,000 evening students plus a projected summer student enrollment of 2,500.

In other action the Regents also accepted a grant of \$37,880 on a matching basis from the National Science Foundation for an undergraduate instructional scientific equipment program. The money will be used to purchase an IBM 1620 computer.

## Grads May Go To Peace Corps 65 Have Now Applied Says Pflasterer

Graduating seniors still have an opportunity to get into the Peace Corps summer training programs, according to Don Pflasterer, Dean of Student Personnel.

Interested seniors can get a Peace Corps Volunteer questionnaire from their post office or Dean Pflasterer. The questionnaire should be filled out and mailed to the Director of Recruiting, Peace Corps, Washington, D. C., as soon as possible.

Dean Pflasterer reported this week that 65 students from Omaha University have applied to the Peace Corps since school opened last fall. One former student is now serving and another has completed his two year tour.

According to Dean Pflasterer the need for teachers is much greater than the Peace Corps can supply. He noted that there are thousands of opportunities for liberal arts graduates to teach in secondary schools and hundreds of openings are available in colleges and universities in Africa, Asia and Latin America.

## OU Receives Federal Grant

The University of Omaha received a \$20,000 grant from the Department of Health, Education and Welfare of the United States Office of Education for teaching of the deaf this week. This is the third such grant the university has received for this graduate program since 1962.

Dean George Rachford of the College of Graduate Studies said five graduate students would receive \$2,000 each plus tuition and fees for the program. The university will receive the other \$10,000 for conducting the program.

The university's program is in co-operation with both the Nebraska and Iowa Schools of the Deaf.

The GATEWAY is published weekly by students of the Omaha University Department of Journalism. Editorial comment and signed letters to the editor are not necessarily representative opinions of the faculty, administration or student body.

## Dr. Paul Leaving To Head Cincinnati U. Department

(Cont. from Page 1)  
that grew each year and I'm sure we'll find it difficult to pull up those roots," said Paul. The crying towel, which is used so often, was presented to Paul last fall by his students who felt they had to cry a little bit because of their grades. "Dr. Paul's crying towel is a true symbol of his open door policy. Many students have brought their problems to Dr. Paul because he understands

and is willing to help. Even students outside the speech department have come to him because of recommendations from other students," said Arlene Grossman, who works in Paul's office.

"He has been a guiding light to the speech department and his relationship to his students has been more like a father than an instructor," stated another student.

Paul will remain at OU until after the first session of summer school. Next year Dean Robert Harper will be the acting head of the speech department until such a time that Dr. Aldrich Paul can be replaced.

## Seminar Courses Set for Summer Educational Classes Worth 3 Hours

Dean Frank Gorman of the University of Omaha's College of Education announced this week four special seminar education courses scheduled for this summer. All courses will be concentrated into an eleven day period.

"Techniques of Child Study," will be offered June 8-19 with Dr. Daniel Prescott, a University of Maryland instructor.

"Program Planning for Educational TV," will have two sessions, June 15-26 and July 13-24. Dr. Craig Fullerton, assistant superintendent of Omaha Public Schools will be the instructor.

"Teaching of the Educable Retarded Child," will finish out the special courses. It will be offered August 10-21 with assistant superintendent of Omaha Public Schools, Don Warner, acting as the instructor.

All of these classes will be offered for three hours of undergraduate or graduate credit.

## OU Graduate Studies To Be Offered Again

The University of Omaha's College of Graduate Studies will again offer courses this summer.

It will offer everything from problems in biology to teaching exceptional children.

The first summer session runs from June 8 through July 10. The second session will start July 13 and run to August 14. A copy of the summer program can be obtained at the information office in the Administration Building.

George Rachford, Dean of the College of Graduate Studies said the college will offer three courses this summer never before available. The new courses will be offered in the geography, teacher education and business departments.

## OU Psychology Department Will Add 5 To Faculty

### Affleck, Lusieny and Wodder Part-Time

Omaha University's psychology department will add five members to its faculty next fall.

Richard Wikoff, who will teach part of his classes in the psychology department and the others in the department of education, received his Ph.D from Oklahoma State University.

Wurtz, who received his Ph.D from the University of Minnesota, will head the Child Study Service. He is currently working in the public schools in Rochester, Minn.

Other new faculty members are Craig Affleck, Deen Lusieny and Neils Wodder.

Affleck, presently working in clinical psychology at Nebraska Psychiatric Institute, received his Ph.D from Northwestern University. He is slated to instruct the evening class of Survey of Clinical Psychology.

Taking charge of two courses next semester is Deen Lusieny. He will instruct the daytime meeting of Personality and Adjustment and the evening session of Psychology 101. Lusieny received his Ph.D from the educational psychology department at the University of Nebraska.

Completing the list of new instructors is Neils Wodder. Receiving his Ph.D from the University of Nebraska, he will teach Educational Psychology at night next semester. He is currently an educational psychologist in District 66.

Afflick, Lusieny and Wodder will be employed on a part-time basis.

## Bootstrappers Graduation Set

Proof of the continuing success and popularity of the University of Omaha's program for military personnel will be evident this June when 197 Bootstrappers receive their degrees. An additional 300 will graduate in August.

According to Ray Nolte, Supervisor of the Education Program for Military Personnel, the two summer sessions will have 350 Bootstrappers in attendance.

Nolte pointed out that in a 10 year period one base alone, Fort Sill, Oklahoma, has sent 145 military students to the University to complete their degree requirements.

### Wives Get Degrees

The traditional coffee for wives of graduating Bootstrappers will be held May 29 at 3:30 p.m. in the S. C. Ballroom.

Dean William T. Utley, College of Adult Education head and Roy Nolte, Education Program for Military Personnel supervisor will jointly present PHT (Putting Hubby Through) diplomas to the wives.

In the event any wives are unable to attend, their husbands are urged to accept for them.

### JOB OPPORTUNITY — PART-TIME AND SUMMER

Internship in life insurance: Learn its function, marketing fundamentals. Experience in executive development, time organization. How to approach others, put ideas across. Develop leadership. Get salable business experience not obtainable in most part-time and summer college jobs, plus good earnings. Contact Mrs. Harsh, Director of Student Placement, Room 231, Administration Building for information.

## Question Of The Week

With the adoption of daylight savings time in Council Bluffs there has been much discussion as to its merits and faults. At a recent meeting of the City Council, Bluffs councilmen decided to go along with the rest of the state of Iowa and go on "fast time".

Cade

One Bluffs resident, Diane Cade, a student at Omaha University, has her views: "It is more of a mild disaster than a time saver. It's not proving to be what the Council members thought it would be."

She recently signed a petition to revoke it. Feeling that it was a relatively harmless but foolish move, she went on to say, "The price for that extra hour of sunlight wasn't worth it."

Ray Mark, another Bluffs resident and OU student, expressed his rather approving opinions: "It's a good deal because I can gain an hour's sleep every night."

Mark

He said that his family, like many who come in contact with Omaha time, has two clocks at home—one for fast time and one for Omaha time. Even though he works in Omaha and attends school here, he keeps his watch set according to Bluffs time. He said that although most Bluffs residents don't care for the new time, it has worked to his advantage since he is employed in Omaha.

"I wish Omaha was on it," is what Marilyn Rosenbaugh has to say about it. She is another Bluffs resident who attends OU. She went on to say that it does pose problems at home, though. One of the main reasons she likes it is because of the longer evening.

"My mother, father and I go by Omaha time, but my brother goes by Bluffs time." She said that shortly after daylight savings time came into existence, her brother missed the bus for school twice in the same morning.

Rosenbaugh

He awoke and saw that the clock read 6:30 a.m. Thinking that it was really an hour later, he hurried to get ready for school and went out to catch his bus. Seeing that no one was outside, he went back into the house and asked Marilyn to take him to school so he wouldn't be late. However, it really was 6:20, so he was told to go back to bed. He did, overslept, and missed his bus.

"A cursed daylight savings time," is what Thomas Walsh, OU English instructor and Bluffs resident, says. Originally started for the farmers so they could have an extra hour in the fields, even the Iowa farmers don't like it, Walsh continued.

Walsh

He went on to say that during the war the extra hour of daylight was advantageous, but now it isn't necessary. Going by Omaha time, Walsh said that fast time interferes with his activities in Council Bluffs.

There are other views on the time difference between Omaha and the Bluffs. Take for example the student who gets out of class at 3:20 p.m. and has to be at work at 4:30. Well, it's really 4:30 in the Bluffs; so, said student is automatically an hour late to work.

One last thought remains to be said: It now takes an hour just to drive across the Ak-Sar-Ben bridge from Omaha to Council Bluffs.

## NAIA Tourney May 29-30

(Cont. from Page 1)

arms of Larry Krehbiel, Frank Pecha, Ken McEwen and Jim Butler.

This is possibly the best OU mound staff ever. McEwen showed that he is ready to pick up where he left off last year by whipping Sterling, 8-1, with a three hitter in the area playoffs last week.

Pecha was rocked by Wayne but OU came back to win, 7-6, behind solid relief by Krehbiel, who incidentally, gave up his

first runs of the season against the talented Wildcats.

Butler was a surprise pitching choice in the finale against Wayne and did a good job for five innings in spite of not seeing action in more than three weeks.

Again it was Krehbiel to the rescue as OU won the title, 5-4, with a big assist from Rich Vacek's homer with two aboard.

With school out, the 29th and the 30th should be an important date on OU sports fans' calendars.

## Senior Honoraries Tap 20 At Annual "Spring Sing"

### Chi O's and Pi Kaps Win First Place

Waokiya and Omicron Delta Kappa, senior honoraries on campus, tapped new members at the annual Spring Sing last week.

The new president of Waokiya is Dee Brezacek. Other officers are Judy Williams, vice president; Linda Anderson, secretary and Joyce Borland, historian.

Other women selected for membership are Teddy Backstrom, Ginny Bohaty, Gail Browning, Jana Doxton, Judy Eichhorn, Sheri Hronek and Karen Jensen.

Janet Kroeger, Susan Krogh, Roni Myer, Billie Poulson, Georgia Ruby and Jan Seaman complete the list.

Omicron Delta Kappa elected Chuck Saxton to be president and Jack Mielke as vice president. Willie Wakefield will serve as secretary and Dean of Men Donald Pflasterer will be treasurer.

Loren Drum, Roger Friedman, Mike Kisgen, Ken McEwen, Russell Mullens, Everett Robb and Joel Snell are the others who were tapped by ODK.

Following the tapping, the winners of the song competition were announced. Chi Omega won first place in the women's division. Alpha Xi Delta was second and Sigma Kappa took the third place ribbon.

Pi Kappa Alpha took the trophy in the men's singing. Lambda Chi Alpha was second and Theta Chi, third. They were both awarded ribbons.

Pauline . . . TKE Queen

### Coral Queen

An all-Greek vote named Pauline Williams, Alpha Xi Delta, Coral Queen at the annual Tau Kappa Epsilon Coral Dance.

Miss Williams was presented with a lei of red carnations by last year's Coral Queen, Nancy Kautz.

Other candidates were Cheryl Bird, Zeta Tau Alpha; Francie Ernst, Chi Omega and Linda Flack, Sigma Kappa.

Entertainment at the dance featured the Stingrays Combo and Hula Dancers.

The candidates and TKE dates were each given an orchid lei.

### Phi Chi Key

The Phi Chi Theta Scholarship Key has been awarded to Jan Thompson.

## Zeta's Will Attend Miami Convention Seven Will Represent Chapter From OU

Members of Zeta Tau Alpha throughout the U. S. will meet in Florida for a national convention June 22 through 27.

The convention will be held at the Americana Hotel in Bal Harbour, near Miami Beach.

The program for the seven days includes daily meetings and round-tables, a tour of the Miami area, a Calypso Party and competition between the chapters in scholarship, singing, membership and attendance at the convention.

OU's chapter of Zeta's will enter a song written by a member of its chapter in competition.

Representatives to the convention from the Gamma Mu chapter are Gail Browning, De de Erpelding, Jan Grossman and Barb Keast.

Other Zetas who will represent the OU chapter are Marilou Thibault, Jan Thompson and Kathy Vail.

## IEEE Elects Officers; Hold Annual Banquet

The Institute of Electrical and Electronics Engineers elected officers for next year at last Friday's meeting. They are John Dejnozka, president; Larry Hicks, vice president; Bill Beck, secretary and Mary Ellen Isvik, treasurer.

The following evening members held their second annual dinner at Johnny's. Fred Abbot, this year's president, received the Student branch service award. Mary Ellen Isvik also received a special certificate for service to the organization.

## Nearing Summer Sees Varied Vacation Planning

### Livi Bergman

Finals begin today. But there are better days ahead. Most students are looking forward to the warm, fun-filled days of summer vacation. Many have exciting or unusual plans.

This summer Rod Rhoden and Dick Giblin are going to Southern California for three months of surfing and sun and a little work—"as little as possible."

Roger Sayers and Terry Williams will be trying out for the U. S. Olympic track team. Jim Jones is trying out for the U. S. Olympic wrestling team.

Jim Horky, who has worked out a "system," is heading for Las Vegas to "break the bank."

Sue Weidenhammer and Neil Galloway, both graduating seniors, will be married June 5 and are going to Bermuda for their honeymoon. Jackie Palmer and Dick Byers will be married June 12.

Tom Ostronic is going to Tijuana, Mexico, via a motorcycle, for a six-week vacation.

Motorcycles also hold an interest for Jim Messing who is going to Dodge City, Kansas to ride in a National Motorcycle Rally.

Fred Scarpello and John Bozak will be working at Disneyland all summer. "But we plan to have a little fun, too," said Fred.

Jean Dayton plans to teach tennis at a girls summer camp.

Herb Rhodes is also going to be at summer camp, but for a different reason. He is going to an ROTC summer camp for a month of training.

Mary Jean Horn can't put the books away for long, for after graduation she leaves for the Sorbonne in Paris to study French.

Don McMichael is going to Tokyo, Japan this summer for the Olympics. There he hopes to see the three OU athletes who are trying out.

Marilou Thibault will be the all-night disc jockey for KBON and will handle the morning police beat. Sleep?—Well, it isn't in her schedule for the summer.

The World's Fair holds a big attraction for students. Dotti Mott, Jimmy Meyers, John Stewart, Tony Tedeski and Jay Bowby are going to visit the fair during the summer.

John Sutin is going to Washington D. C. where he hopes to get a glimpse of the president while he visits the White House.

Miami, Florida, will draw many fraternity and sorority members as it plays host to annual conventions. Tom Upton and Bill Miller will be going there for the Theta Chi convention. Jan Thompson and Kathy Vail are going representing Zeta Tau Alpha. Tom Ridley will be going for the Lambda Chi Alpha convention.

Marcia Cathcart and Teddy Backstrom are going to White Sulphur Springs, West Virginia for the Chi Omega Convention.

Well, enough looking to the future. Let's get busy now and cram!!!!

### Williams Leads

Judy Williams has been elected to preside over Corinthian Society, scholastic honorary, during the coming year.

Other officers are Ruth Meyers, vice-president; Ladonna Johnson, secretary and Janet Kroeger, treasurer.

## OU Starts Technical Department in Meeting Growing Demand

### By Ruth White

Technicians are so much in demand that one school, opened recently in Miami, Florida, has been able to graduate only one student in the past several years. Industry has made such tempting offers that the students have quit school to go to work.

Omaha University has taken a step toward meeting the growing demand for technicians. Under the direction of Edwin Kinney, a Technical Institute program will be in operation by the fall (1964) term. Courses will be offered in construction technology, drafting and design technology, and electronics technology.

This program is not an alternate educational program, nor is it a vocational school. It is a two-year college-level program for students who are interested in a particular technological field but who do not want to undertake a four- or five-year engineering course. Emphasis will be placed on the understanding and practical application of the basic principals of engineering, mathematics and science.

Instructors will include OU professors and professional men already working in the fields of study. Field trips to construction sites and industry will be included in the course.

Associate degrees will be awarded to students who complete the two-year (70-hour) course for credit. Certificates of completion will be given to those who participate in the course on a non-credit basis. Full or part time schedules can be arranged. Day and evening classes

will be held.

Students who complete these courses will be semi-professional workers and will have acquired skills needed in a number of interesting fields. They will be technicians, capable of working directly with engineers.

### WHO CAN ENROLL?

A recent poll of Omaha high school students showed that 35 percent of those who would not be attending college wanted some course of instruction after graduation. Such students may enroll in the OU Technical Institute program through the College of Engineering. They should have some background in high school science and math.

Adult applicants for non-credit work may apply through the College of Adult Education. Prerequisites are an interest in the program and the willingness to work.

"The program will offer people already working in the chosen fields an opportunity to improve their skills," said Mr. Kinney.

### WHAT ABOUT JOB OPPORTUNITIES?

The present balance of technicians to engineers, according to Dr. Edward Wenk, is approximately 55 to 100. The ideal would be about three technicians or more to each engineer. Therefore, a need does exist for semi-professional workers.

When this program was ex-

plained to the heads of industry and construction in the Omaha area, many wrote and said that they would use more skilled craftsmen and technicians. The Nebraska chapter of the Associated General Contractors of America Inc., donated \$2,000 per year for the first two years the program is in effect.

"It is important to keep a line of communication between school and industry. We shall adjust the technical program to meet new needs and demands in industry," said Mr. Kinney.

## Freshmen Honorary Names New Heads

Freshmen women's honorary Alpha Lambda Delta has elected officers for the coming year. Carrol Dolinsky will serve as president and Kristie Isaacson will be vice president.

Other officers are Hilde Walter, secretary; Susan Chapek, treasurer and Joan Berkheimer, historian.

Dee Brezacek will serve as senior advisor and Pauline Williams as the junior advisor. These officers were installed at the meeting last Thursday.

Membership in the honorary is open to freshmen women who earn a grade point of 3.5 for their first semester or an accumulative of 3.5 for their first two semesters.

## Co-ed Of The Semester

## Dorothy Geihs . . . "Co-ed of the Semester"

Our first Co-ed this semester has returned to brighten our pages once again as our Number One girl of the Spring Semester.

Looking to the summer months lying just ahead, Dorothy plans to mix an adequate dose of work with an even supply of fun and sun in California. Next fall, however, she plans to be back on campus striving toward a degree in Psychology.

To Dorothy Geihs we extend a tip of the GATEWAY hat and offer her congratulations as "Co-ed of the Semester".

## 17 Game Baseball Figures

Larry Krehbiel continues to lead the pitchers in nearly all categories, and Wayne Backes leads the regular hitters into the Area Playoffs for next weekend. Here are the statistics after 17 games, including last week's playoffs:

NAME	G	AB	R	H	PO	A	E	2b	3b	HR	SB	W	SO	RBI	Avg.
Larry Wood	2	3	2	5	3	4	1	0	0	0	0	0	3	0	.667
Ken McEwen	6	11	1	5	3	6	0	2	0	0	2	3	3	0	.455

# Rested OU Runners Bid For Laurels 'Mayor' Gregg

## Sayers To Defend His AAU Title

Omaha U trackmen are back in sweat togs this week after a brief layoff since the Washburn dual meet last week.

Next up for Coach Lloyd Cardwell's crew are the Midwest AAU Track and Field Championships at Midland College, May 29-30.

The AAU meet will serve a dual purpose. It will be a springboard for the National AAU meet qualification and it will serve as a tuneup for the NAIA meet at Sioux Falls, South Dakota, on June 5-6.

Rocket Roger Sayers had better be healthy for the two meets if he is to defend his titles. The OU flash is defending champion in the NAIA 220 and 100 and set a Midwest AAU mark of 9.5 in the century last year at Fremont. He also holds the AAU 220 mark of 21.1 which he set at Cozad in 1962.

The two meets are the first stepping stones on the long and grueling Olympic trail to Tokyo. The National AAU meets will be at New Brunswick, N. J., in the latter part of June and will be followed a week later by the Olympic preliminaries at Randall's Island, N. Y., a week later.

### U.S.—Russia dual next

The United States - Russian track meet at Los Angeles in September will follow the Olympic tryouts. The final U. S. Olympic squad will not be completed until all three meets are over.

Sayers has resumed workouts this week and says the leg isn't bothering him as much as in the past. His only complaint at the moment is an aching back which he says hampers his leg.

Terry Williams says he's okay as usual and is also looking forward to the upcoming NAIA and AAU tests. He's got revenge on his mind for last year's failure in the NAIA 220 after two false starts which disqualified him.

### FINAL POINT TOTALS

Pi Kaps	108
Darts	97
Lambda Chi	48
Delta Rho	14 1/2
TKE	13 1/2
Theta Chi	9
Unaffiliated	6 1/2
AEPI	2 1/2

Two records were broken and one tied as Pi Kappa Alpha won the Men's Intramural Track Meet last week.

## In Bush League

By Mike Moran

GATEWAY Sports Editor

## For Mayor of Kearney . . . Gregg McBride

I hope everybody reads Gregg McBride's daily rehash of Kearney's big weekend. We are all impressed by Kearney's facilities . . . until we see Memorial Stadium in Lincoln. Does McBride think there is really a comparison between the two or that a Nebraska high school boy would rather spend his weekend in Kearney rather than Omaha? Kearney is strictly bush league and will always be, no matter how much sportswriters like to glorify outstate Nebraska. Compare the picture of the Kearney facilities with that of Omaha University. Do you really think the decision to move the meet to Kearney had the interest of the athletes at heart . . . of course not, just more adults bickering over who shall be supreme, Omaha or the rest of the state.

## Where's the Noise? . . .

Omaha U. baseball fans got to see the best baseball seen in the stadium for some time when the Indians nipped Wayne for the NAIA area title. But how come the meager turnouts? Could it be that Omaha students only practice school spirit within the friendly confines of the OUampi Room? It's high time that a few of the Greeks who call themselves the pillars of the school proved it in other things besides campaigning and pie-throwing. Why not start with the NAIA Area 3 finals on May 29th at the Stadium?

## Punt . . .

Mancuso

The new football schedule is out, and as usual all the games at home are right here at 2 o'clock on Saturday afternoons. Stadium manager Charles Mancuso believes that OU could draw well at night at his big plant. He points out that OU tied Adams State at the Stadium three years ago when football was down. 7,000 saw the game in ideal weather and so did I.

OU officials say that we couldn't do any better attendance wise at the Stadium than at the campus field. Considering Mancuso's record of promoting basketball, baseball and the pro football and rasseling, I prefer to believe Charley.

And while we're on the subject of football and seating, how about moving the benches to the East side so that box seat patrons can see something besides the players and their rear ends. That shouldn't require a faculty meeting to get it done.

## Gulp!

This column will be a regular feature of next semester's GATEWAY . . . all letters or questions, or insults may be directed to Mike Moran, care of the GATEWAY.
